

Screeno® Line

Privacy solutions

A modular and effective solution to create immediate privacy on a newly installed or already existing Betafence panel fence.

Product detail

BENEFITS

Decorative

Decorative & stylish privacy solution, available in a wide range of different colors and heights.

Compatibility

Betafence Screeno Line privacy slats can be combined with Bekafor Classic and Nylofor 3D (PRO) / 3D Essential / 3D Light panels.

Easy installation

The Screeno Line privacy system can be easily installed on an existing or new fence line. For the installation no specific tools or machinery is needed.

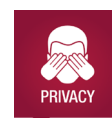

Guarantee

The quality of the privacy profiles is guaranteed for a period of 10 years. (For the guarantee conditions see the product label or the Betafence website).

Applications

Functionalities

Bekafor Screeno Line

Screeno Line privacy slats standard available from stock in 3 different colors

- green
- anthracite
- imitation light woodlook

Compatible with 2m wide panels:

- Bekafor Classic

Nylofor Screeno Line

Screeno Line privacy slats standard available from stock in 4 different colours:

- green
- anthracite
- imitation light woodlook
- imitation dark woodlook

Compatible with 2,5 meter wide panels:

- Nylofor 3D
- Nylofor 3D Pro
- Nylofor 3D Essential
- Nylofor 3D Light

Installation

The horizontal & vertical slats can easily be glided in the panel. The vertical slats can be fixed to the panel's bottom horizontal wire, by means of clips (included in the packing) and without tools.

The specific shape of the horizontal beam can be installed in 2 directions, which enables installation with the different panel types. A top profile guarantees perfect finishing.

Visit our YouTube page to see the full installation video.

Material

Extruded PVC slats with specific composition which ensures an excellent rigidity and UV stability

Compatible panel heights

- For Bekafor panels : 103 / 123 / 153 / 173 / 203 cm
- For Nylofor panels : 103 / 123 / 153 / 173 / 193 / 203 / 243 cm

Packaging

Each set contains all elements to create privacy on a complete panel:

- The slats are to be inserted in the panel in a vertical way (including 2 smaller slats which are to be used at the extremity of the panel)
- Trapezoidal slats, to be inserted in the panels' horizontal 3D-noses
- Clips for fixation of the vertical slats on the panels' bottom horizontal wire
- A top profile in 2 pieces for Nylofor panels & 1 piece for Bekafor panels is supplied for a perfect finishing

Remark

When equipping a fence line with privacy infill, specific attention needs to be given to the used post type and the complete installation (impact on windload) and this for security & possible damage reasons.
